## Mariposa Skate Park Mural

### Concept

We would like to have youth, with adult supervision, create a series of mural panels for the long sound wall that lines the back side of the Mariposa Skate Park. Currently the wall is a glaring and unattractive expanse of white. Murals mounted on the wall would beautify the facility thereby beautifying the park. Youth producing the murals would help them to establish a role as stewards of the park.

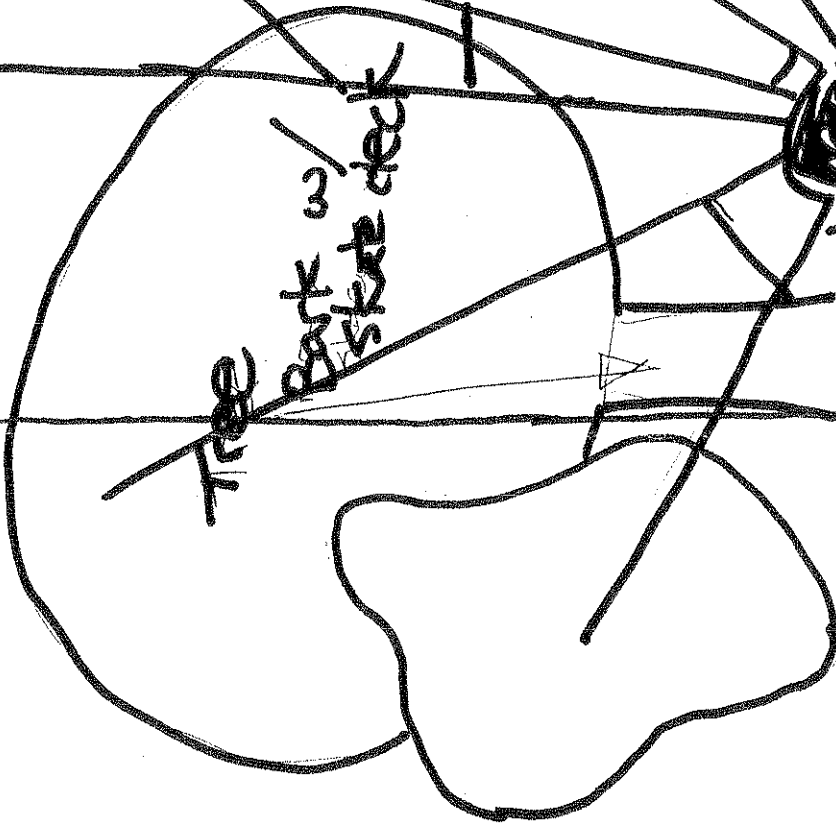

Mural Dimensions: 4 - 4'x6' panels adjoined on the longest sound wall. Possibly including a rain cap to prevent water from getting between the panel and the wall.

All images will be decent, no violence, vulgarity, or obscenity. The murals will be on removable panels for ease of maintenance. Due to the extreme heat reflection of the concrete the murals will be painted with a very high quality paint specifically designed for murals. The murals would then be covered with a clear coat for protection.

### Follow Up

The project completion will be followed up by a meeting of representative parties to evaluate the project and decide if there are any next steps or other skate park improvements. Youth will be part of the meeting to develop their leadership role as stewards of the park.
