RE: Behavioral Health Contract for Institution for Mental Disease (IMD) Services

Recommendation

It is respectfully requested that your Board: (1) approve continuing a Behavioral Health contract for an Institution for Mental Disease with California Psychiatric Transitions in Delhi, California; and (2) authorize your Chairman to sign the contract.

Background/Current Situation

California Psychiatric Transitions (CPT) is located in Delhi, California, and is one of a very limited number of Mental Health Rehabilitation Centers (MHRC) that specialize in working with people who are dually diagnosed as seriously mentally ill and developmentally disabled or brain injured. CPT provides specialized, cost effective services that meet Mental Health Services client needs for immediate placement at a lower level of care upon hospital discharge.

This County does not operate any locked inpatient Institutions for Mental Disease and therefore contracts for such services. These services are necessary for people who are unable to live independently. This contract is important because CPT is in our region and using a relatively new anti psychotic medication that has assisted many people. The medication requires constant monitoring. In general, it is important to have a wide array of placement alternatives to best meet client needs.

The current contract was reviewed and approved by your Board on June 10, 2008 by Resolution Number 08-232.

Financial

This contract will continue to be paid within the Mental Health budget unit 0402. The cost is \$200 per day and the estimated length of stay is generally from three to six months. Often, client income pays for part of these services, for example through Social Security or MediCal.

There is no impact on the general fund.
