

Attachment 5

Government Code Excerpts

GOVERNMENT CODE

SECTION 65400-65404

65400. (a) After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(1) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan, so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(2) Provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes all of the following:

(A) The status of the plan and progress in its implementation.

(B) The progress in meeting its share of regional housing needs determined pursuant to Section 65584 and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

The housing element portion of the annual report, as required by this paragraph, shall be prepared through the use of forms and definitions adopted by the Department of Housing and Community Development pursuant to the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2).

(C) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

(b) For the report to be filed during the 2006 calendar year, the planning agency may provide the report required pursuant to paragraph (2) of subdivision (a) by October 1, 2006.

(c) If a court finds, upon a motion to that effect, that a city, county, or city and county failed to submit, within 60 days of the deadline established in this section, the housing element portion of the report required pursuant to subparagraph (B) of paragraph (2) of subdivision (a) that substantially complies with the requirements of this section, the court shall issue an order or judgment compelling compliance with this section within 60 days. If the city, county, or city and county fails to comply with the court's order within 60 days, the plaintiff or petitioner may move for sanctions, and the court may, upon that motion, grant appropriate sanctions. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment is not carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled. This subdivision applies to proceedings initiated on or after the first day of October following the adoption of forms and definitions by the Department of Housing and Community Development pursuant to paragraph (2) of subdivision (a), but no sooner than six months following that adoption.

and subdivision (c) of Section 65302.

(f) "Supportive housing" has the same meaning as defined in subdivision (b) of Section 50675.14 of the Health and Safety Code.

(g) "Transitional housing" has the same meaning as defined in subdivision (h) of Section 50675.2 of the Health and Safety Code.

65582.1. The Legislature finds and declares that it has provided reforms and incentives to facilitate and expedite the construction of affordable housing. Those reforms and incentives can be found in the following provisions:

(a) Housing element law (Article 10.6 (commencing with Section 65580) of Chapter 3).

(b) Extension of statute of limitations in actions challenging the housing element and brought in support of affordable housing (subdivision (d) of Section 65009).

(c) Restrictions on disapproval of housing developments (Section 65589.5).

(d) Priority for affordable housing in the allocation of water and sewer hookups (Section 65589.7).

(e) Least cost zoning law (Section 65913.1).

(f) Density bonus law (Section 65915).

(g) Second dwelling units (Sections 65852.150 and 65852.2).

(h) By-right housing, in which certain multifamily housing are designated a permitted use (Section 65589.4).

(i) No-net-loss-in zoning density law limiting downzonings and density reductions (Section 65863).

(j) Requiring persons who sue to halt affordable housing to pay attorney fees (Section 65914) or post a bond (Section 529.2 of the Code of Civil Procedure).

(k) Reduced time for action on affordable housing applications under the approval of development permits process (Article 5 (commencing with Section 65950) of Chapter 4.5).

(l) Limiting moratoriums on multifamily housing (Section 65858).

(m) Prohibiting discrimination against affordable housing (Section 65008).

(n) California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3).

(o) Community redevelopment law (Part 1 (commencing with Section 33000) of Division 24 of the Health and Safety Code, and in particular Sections 33334.2 and 33413).

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's

(50)

existing and projected housing needs for all income levels, including extremely low income households, as defined in subdivision (b) of Section 50105 and Section 50106 of the Health and Safety Code. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584. Local agencies shall calculate the subset of very low income households allotted under Section 65584 that qualify as extremely low income households. The local agency may either use available census data to calculate the percentage of very low income households that qualify as extremely low income households or presume that 50 percent of the very low income households qualify as extremely low income households. The number of extremely low income households and very low income households shall equal the jurisdiction's allocation of very low income households pursuant to Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable for residential development, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) (A) The identification of a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit. The identified zone or zones shall include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zone or zones that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zone or zones with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zones where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate that existing or proposed permit processing, development, and management standards are objective and encourage and facilitate the development of, or conversion to, emergency shelters. Emergency shelters may only be subject to those development and management standards that apply to residential or commercial development within the same zone except that a local government may apply written, objective standards that include all of the following:

- (i) The maximum number of beds or persons permitted to be served nightly by the facility.
- (ii) Off-street parking based upon demonstrated need, provided that the standards do not require more parking for emergency shelters than for other residential or commercial uses within the same zone.
- (iii) The size and location of exterior and interior onsite waiting and client intake areas.
- (iv) The provision of onsite management.
- (v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.
- (vi) The length of stay.
- (vii) Lighting.
- (viii) Security during hours that the emergency shelter is in operation.

(B) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act

54

(Division 13 (commencing with Section 21000) of the Public Resources Code).

(C) A local government that can demonstrate to the satisfaction of the department the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zone or zones where new emergency shelters are allowed with a conditional use permit.

(D) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zones for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (6), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (6). Transitional housing and supportive housing shall be considered a residential use of property, and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone.

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

(7) An analysis of any special housing needs, such as those of the elderly, persons with disabilities, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on annual and seasonal need. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period.

(8) An analysis of opportunities for energy conservation with respect to residential development.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

55

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government which have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs which can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program which have not been legally obligated for other purposes and which could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category, including extremely low income, that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period of the general plan with appropriate zoning and development standards and with services and facilities to

50

accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2.

(B) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities.

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) The program shall include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals. The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement, with a maximum of two other adjacent communities, that requires the

57

participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit towards its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

65583.1. (a) The Department of Housing and Community Development, in evaluating a proposed or adopted housing element for substantial compliance with this article, may allow a city or county to identify adequate sites, as required pursuant to Section 65583, by a variety of methods, including, but not limited to, redesignation of property to a more intense land use category and increasing the density allowed within one or more categories. The department may also allow a city or county to identify sites for second units based on the number of second units developed in the prior housing element planning period whether or not the units are permitted by right, the need for these units in the community, the resources or incentives available for their development, and any other relevant factors, as determined by the department. Nothing in this section reduces the responsibility of a city or county to identify, by income category, the total number of sites for residential development as required by this article.

(b) Sites that contain permanent housing units located on a military base undergoing closure or conversion as a result of action pursuant to the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526), the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510), or any subsequent act requiring the closure or conversion of a military base may be identified as an adequate site if the housing element demonstrates that the housing units will be available for occupancy by households within the planning period of the element. No sites containing housing units scheduled or planned for demolition or conversion to

58
