

MARIPOSA COUNTY RESOLUTION NO. 90-139

A RESOLUTION AMENDING THE MARIPOSA COUNTY IMPROVEMENT STANDARDS

WHEREAS, the Mariposa County Improvement Standards establish standards for the construction of access roads for development projects, and

WHEREAS, the Board of Supervisors has determined that environmental impacts would be reduced in some cases by providing flexibility relative to shoulder designs on rural roads, and

WHEREAS, the Board of Supervisors has determined that the providing additional flexibility regarding shoulder widths on major roads will have no potential impacts on the environment.

NOW THEREFORE BE IT RESOLVED that the Mariposa County Board of Supervisors hereby amends the Mariposa County Improvement Standards as follows:

Section 11.4 (B) (8) (a)(2) Shoulder Width shall be added. On rural roads, Class III or higher standards, the shoulder width may be reduced based upon a specific recommendation by the Public Works Director. Such waivers are appropriate where it can be shown that the construction of the standard width shoulders would create significant environmental concerns based upon steep terrain or substantial vegetation removal.

PASSED AND ADOPTED by the Mariposa County Board of Supervisors this 20th day of March, 1990, by the following vote:
