Agenda - June 26, 1990

Approving Master Plan Application and Role of Human Services Task Force

BACKGROUND

The Board, at its December 19, 1989 meeting, discussed establishing a Human Services Task Force to report on problems in the delivery of human services, and to explore the possibility of creating a Human Services Commission. The Board referred the matter to the Human Services Director for further analysis and recommendation. A report to the Board was presented on January 16. The following recommendations were adopted by the Board at that meeting:

RECOMMENDATIONS

The Board of Supervisors form a Human Services Task Force committee and direct the Human Services Director to provide staff support to this committee to accomplish the following tasks:

1. Review and describe the existing and potential countered problems in the the delivery of human services;
2. Explore the feasibility of creating a Human Services Commission to advise the Board of Supervisors on human service matters, and to provide more effective coordination of the service delivery system;
3. Explore and recommend the functions of such a commission, such as staffing requirements; draft and propose commission bylaws if appropriate.

Since its inception, the task force has met four times. During this time, it was learned that the State Department of Alcohol and Drug Programs was allocating funds to counties to pay for the completion of a County Master Plan. The purpose of the Master Plan, as envisioned by Senate Bill 2599 is to:

1. Establish lines of communication and avenues of coordination that eliminates unnecessary duplication and facilitate networking and development of a united a approach to solving the problems associated with the use of alcohol and other drugs.
2. Maximize and more effectively use existing resources invested in the tremendous effort to reduce the problems associated with the use of alcohol and other drugs.
3. Provide avenues of new funding sources to supplement current financial commitments.
4. Provide guidance to public policy decision makers affecting alcohol and other drug services and activities.

Mariposa County is earmarked to receive \$25,948 of State funds to support the development of the Master Plan in FY 1990-91. To apply for funding, the County must complete a request for application and designate a Master Plan Advisory Body.

The completion of task force activities was put on hold pending submission of the master plan application and designation of the Human Services Task Force as the Master Plan Advisory Body.

It is also recommended that the Board of Supervisors designate the Human Services Task as the lead advisory body for the following State mandated advisory boards, committees and councils.

Tobacco Use and Prevention Education Committee

Drug Abuse Education and Prevention Advisory Council

Drug Suppression in Schools Advisory Committee

Local Coordinating Committee Comprehensive Alcohol and Drug Prevention Program

School Community Primary Prevention Program Committee

This action responds to the immediate need to consolidate the many State mandated committees of which many of the same individuals participate.

This action also responds to the item pulled from the May 14, 1990 Board agenda (#15) and referred to the Human Services Director to bring back to the Board for recommendation.
